What People Liked

“... capable of many things like setting timers, answering questions, and even playing Black Jack.”

“... he is so charming the way he scoots around and chirps up a storm. He twirls and shimmies and tries to get your attention.”

“Having a little robot pet was fun and cute.”

What People Complained

“... I upgraded my router and even after hours of troubleshooting I was no longer able to get this robot to connect...”

“It became frustrating having to ask the same question several times for Vector to finally understand.”

“The other features should be free and come with the robot or it should be listed more heavily that you need a separate subscription for everything.”

Eufy Boost IQ RoboVac 11S (Slim), 1300Pa Strong Suction, Super Quiet, Self-Charging Robotic Vacuum Cleaner, Cleans Hard

What People Liked

“... I love the edges function that directs the vacuum to clean the edges of the room, which it did successfully.”

“... but it cleans well and doesn't need much attention. For me, the lack of wi-fi, Alexa, etc is a major PLUS;...”

“This vacuum is much quieter.”

What People Complained

“The battery on these models was not user replaceable... Now this battery has died suddenly.”

“... made horrible noises after approx 12 months. Apparently the plastic gears inside are made from cheap plastic and they break down.”

“It regularly randomly starts cleaning of its own accord, even when it's not set to clean and the 'schedule' feature is turned off.”

Roomba Combo® i5+ Self-Emptying Robot Vacuum and Mop

What People Liked

“Setup is easy and only takes a few minutes with the iRobot app on your phone or tablet. There you can also connect it to Google Home or Alexa and control it with your voice so you don't even need the app once you have completely set it up and customized the jobs to your home.”

“Unboxing and setup were quick, with easy-to-follow instructions. We had it settled on the charger in about 15 minutes, and our routines set up in even less time.”

“setting the vacuum robot off to map our main living space was fully automatic... The mapping process took around 10 minutes and then we were off to see how well the i5+ would maneuver & clean our floors.”

What People Complained

“The vacuum is so incredibly loud. It constantly gets stuck and it gives me an error message every time”

“Tried clicking the Vacuum Everywhere and it gave random errors each attempt; sometimes "can't connect", sometimes "bin full", but regardless, it wouldn't even attempt a mopping run.”

“The app is poor, with no ability to resume mapping after it gets stuck, even if you are able to successfully reposition it; and duplicate buttons for vacuum everything with no mention of mopping.”
